SECTION 4: FIRST AID MEASURES

Description of necessary measures

Inhalation: Remove from exposure area to fresh air. Seek medical attention immediately.

Skin contact: Immediately wash skin with soap and water for at least 20 minutes while removing contaminated clothing. Seek medical attention if irritation persists.

Eye contact: Immediately flush with cool water for at least 20 minutes. Seek medical attention if irritation persists.

Ingestion: Rinse mouth with plenty of cold water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Immediately contact physician or local poison control center.

Most important symptoms and effects, both acute and delayed

Inhalation: May cause allergic respiratory reaction.

Skin contact: Temporary irritation of the skin.

Eye contact: Mild-to-moderate irritation of the eyes (redness, watering eyes).

Ingestion: Ingestion may cause irritation of mouth, throat, and digestive tract, diarrhea, and vomiting.

Indication of any immediate medical attention and special treatment needed

After inhalation: Remove from exposure area to fresh air.

After skin contact: Rinse affected area with large amounts of mild soap and water until no evidence of product remains.

After eye contact: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.

After ingestion: Dilution by rinsing the mouth and giving water to drink is generally recommended.

SECTION 5: FIREFIGHTING MEASURES

Suitable (and unsuitable) extinguishing media

Suitable extinguishing media: Use extinguishing agent suitable for surrounding fire.

Unsuitable extinguishing media: Not known.

Specific hazards arising from the chemical: Not flammable or combustible. Combustion by-products may include: carbon oxide, nitrogen oxides, sulfur oxides.

Special protective equipment and precautions for firefighters

In case of fire, wear a full-face positive-pressure self-contained breathing apparatus approved according to NFPA/NIOSH or equivalent and protective suit. Shut off all ignition sources and apply cooling water to sides of containers that are exposed to flames until well after fire is out. Avoid breathing vapors; keep upwind. Keep unnecessary personnel away.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures

Wear skin, eye, and respiratory protection. Stop or reduce any leaks if it is safe to do so. Spills present a slipping hazard. Keep unnecessary personnel away. Ensure clean-up is conducted by trained personnel only. Make sure area is slip-free before re-opening to traffic.

Environmental Precautions

Do not allow contact with soil. Avoid runoff into storm sewers, ditches, and waterways.

Methods and materials for containment and cleaning up

Contain and absorb with sand or other absorbent material and place into containers for later disposal. Wash site of spillage thoroughly with water. In case of large spills, dike far ahead of spill to prevent further movement. Recover by pumping or by using a suitable absorbent material and place into containers for later disposal. Dispose in suitable waste container.

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling

DO not ingest. Do not get in eyes, on skin, or on clothing. Use with adequate ventilation. Avoid breathing vapors, spray, or mist.

Conditions for safe storage, including any incompatibilities

Store away from incompatible substances such as bases. Avoid extreme temperatures. Keep the containers tightly closed when not in use.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available.

Hazardous Component(s)	ACGIH	OSHA PEL	AIHA WEEL	OTHER
Citric Acid	TLV-C: 2 mg/m ³ .	1 mg/m ³	Not Available	Not Available

Appropriate engineering controls

Good general ventilation should be sufficient. Handle in accordance with good industrial hygiene and safety practices.
